- Home Lighting Installation
- Computer Network Cabling

Home Technology Integrator:

Home Technology Integrator (HTI) is the process of integrating all commercial and residential technologies into centralized control units that allow ease of control over all attached technologies, as well as, secure remote access to all systems. Current technologies, called modules include security, lighting, AV (a u d i o / v i d e o) , H V A C (heating/vantilation/air conditioning), sprinklers, most appliances, and a majority of nascent home and office technologies.
